

# Summer Camp

August 19 - 25, 2024

## CALL FOR PARTICIPANTS

Are you part of a **SAME Summer Camp partner organization** and would like to boost your activism to a new level? Do you want to meet peers across Europe who, like you, support the idea of Solidarity Action Day and aim to make a change in their community?

Join our project!

## About the event

By joining this project, you will be part of a journey aimed at your personal development. Your adventure will begin with a Summer Camp in Kosovo. Afterwards you will implement an individual project, supporting the Solidarity Action Day in your organization. At the end, we will meet-up once more (online) to reflect and share learnings & best-practices. The main phases of the project will be as follows:

### STAGE 1

**One-week long summer camp in Kosovo.** We will get to know each other, discuss youth participation and activism (a reflection of your “personal mission”). During this time, we will focus on awareness of social issues and the importance of the Solidarity Action Day in fostering social cohesion and solidarity. Depending on your interests, you will jointly develop a video or engagement booklet. There’s also a variety of fun games, team building, and relaxed outdoor activities ahead of you, too. And of course, there is also the option of exploring the city of Prizren or just lying in the sun.

\*The final selection of workshop topics will be announced shortly before the summer camp.

### STAGE 2

**Implementation of individual projects.** It’s time for you to take action. In case you’re not sure about ideas yet, don’t worry. We’ll work on it together during the camp as well as guide and support you on the way afterwards.

### STAGE 3

**Closing event** (December, online) for reflection and sharing learnings. During the previous two stages, we’ll tell you more about what to expect at this step.

## Practical info

DATE	19.08. - 25.08.2024
PLACE	Prizren (Kosovo)
AGE	16 - 19 years
GROUP SIZE	for project partners only (up to 6 delegates per organisation)
